

# Student Voice Leadership Position Letter of Interest

---

I am a grade 10 student looking to lead the Student Voice to a more active future

Mr. Rullen and Brody had an amazing dream to get the numbers of the Voice to large enough where the theatre is needed, and I think this is possible.

## My Plan

---

If I were put into this position I would focus on growth, school morale, and welcomness across the school getting our name out through posters and other forms of advertisements.

Aside from numbers I would also ensure a consistent welcoming community with one goal, the well being of our school.

For this year I would heavily push the student voice to look at school morale, why it could be down and ways to make it better. This would in turn mean working hand-in-hand with the leadership class to plan events.

I would continue to focus on some of the issues that still persist with our school

In the long run I would have many dreams. For example , if we got enough people, the voice could split into smaller groups and tackle issues. For the time being I would keep it as one.

## How I would run the voice

---

I would love to run this with other people, already this is **our** voice. It is important that any decisions I would be making would be shared and others' opinions could be voiced.
